Future Vision

Over the past five years, the Lawyers of the 21st Century Summit has brought together a unique group of experts from across Spain, Portugal and around the world, in order to debate the current challenges facing lawyers.

The economic crisis is bringing opportunities as well as difficulties. Each year, the audience of General Counsel and law firm leaders share their thoughts on the benefits of embracing change while limiting the impact of the current threats.

Participation is strictly limited and by invitation only. Senior lawyers have attended from across Europe, Latin America and the US. In addition, in 2012, we will be welcoming our first participants from India and China.

The In-House Club

Iberian lawyer's In-House Club is a unique group for company legal advisers - be they Company Secretaries, General Counsel or Heads of Legal or Compliance - with operational interests in Spain and Portugal based within or outside the region. In the last year alone over 500 in-house lawyers participated in the group - receiving regular news and information on the profession or attending one of the regular training programmes, seminars or events. The In-House Club is designed by in-house lawyers for in-house lawyers, with the assistance of a senior Advisory Council.

The In-House Club Advisory Council includes:

- Antonio Alves, General Counsel, Portucel Group
- Antonio García, Head of Legal & Regulatory, Jazztel
- Armando Zuluaga, Director General Abengoa Solar USA, Abengoa
- Eduardo Ruiz Montoya, Regional Counsel, Brazil, Hewlett-Packard
